
Icodex Publishing Solutions Limited Secures ₹30 Crore Data Digitization Order Initiated by ITI Limited and ₹45 Crore e-Mahabhoomi Order Initiated by Bharat Electronics Limited (BEL), Government of India PSUs, via VEC Consultancy LLP

Pune, November 11, 2025 – Icodex Publishing Solutions Limited is proud to announce the award of two major public-sector assignments, comprising a **₹30.04 crore data digitization and record management order** and an additional **₹45 crore e-Mahabhoomi digitization order**, both received on a **back-to-back basis from VEC Consultancy LLP**. The orders are **initiated respectively by ITI Limited and Bharat Electronics Limited (BEL)**, both leading Government of India Public Sector Undertakings.

Scope of Work

- **Data Entry of Encumbrance Certificate (Index II) Records (1950–1974):** Over 2.22 crore records to be digitized and structured.
- **Digitization & Scanning of Records:** More than 3 crore pages to be scanned, processed, and indexed.
- **BEL e-Mahabhoomi (Land Parcel Digitization):** Scanning and digitization of land-parcel data across nineteen districts, with uploads and certifications managed on a milestone basis; covering **over two crore fifty lakh polygons**.

This combined engagement represents one of the largest assignments of its kind in the field of historical record preservation, land digitization, and digital governance in India.

Why These Orders are Strategic

- **Scale & Complexity:** Handling crore-scale records, documents, and geospatial datasets demands precision, security, and a resilient digital infrastructure.
 - **Perfect Fit for Icodex's Strengths:** With proven infrastructure, trained manpower, and expertise in **large-scale data services**, Icodex is optimally equipped to deliver within demanding timelines.
 - **Boost to Digital India:** The projects will transform legacy land and registration records into reliable digital assets, improving citizen services, transparency, and data accessibility across departments.
 - **Growth Opportunity:** These orders strengthen Icodex's position as a trusted implementation partner in **data digitization, e-governance, and digital transformation**, paving the way for future large-scale government programs.
